| Zebra: Hartman                      | \$3200  | \$3200 |

**DANGEROUS GAME:** We do not charge a premium on daily rates for the hunting of dangerous game. However, if a non-hunting observer accompanies the dangerous game hunter on foot it is our policy, rooted in safety and precaution, to provide an additional PH for the non-hunting observer. The daily fee for this additional PH is \$150.

**\*\*DANGEROUS GAME AVAILABILITY:** For these specific species, political and governmental forces are consistently and repeatedly at play that greatly impact the ability of lawful hunters to pursue these animals in their natural habitat; the thinly supported policies resulting therefrom often producing outcomes that are a great detriment to the sustainability of the species as supported by the financial proceeds resulting from lawful hunting as contained within scientifically designed management plans. Bushmans Quiver has a history of ethical sustainable harvesting of these species and hopes to continue to see hunting play an important role in conserving sustainable populations of these species. Please contact us regarding this changing political landscape and existing opportunities for the ethical hunting of these species. This situation seems to change from year-to-year, so we list these species with the caveat that we can only know the status of each species as it develops.

**::NOTE:** Due to fluctuations in monetary exchange rates, changing government quotas, scarcity, and other unknown and unpredictable factors, prices are subject to change without notice. Bushmans Quiver will do all within its control to notify clients of impending price changes, but prices are not guaranteed until bookings are secured.
